To properly fit your dog for a collar, measure the dog's neck at "N." Place 2 fingers between the dog and your measuring device for the correct length collar. PoshPoochy collar lengths are based on the measurement from the end of the buckle to the last hole, the largest adjustment. Therefore, an 8" collar measures 8" from the end of the buckle to the furthest from the buckle.

Posh Poochy was founded by Susan Benesh who has a lifetime of love for animals and cares deeply about their welfare. With a long history of successful business development and entrepreneurial endeavors in the US and globally, Posh Poochy began with a mission to promote animal welfare and jobs creation through high fashion and luxury adornments for the cultured canine and the humans who love them.

True to our business model, many of our products are the product of families and individuals whom we have met on our travel around the world providing medical care and humanitarian relief as volunteers. Our dog coats and custom bed pillows are made in the US by women in a transitional program, learning new skills and hoping to make a better life for themselves and their families. These women also participate in the Greyhound Adoption Program, fostering retired Greyhounds and loving them until "forever families" can be found.

We try to keep things simple! We're a niche company with real people, so if you ever have a problem all you need to do is call. We love our pets and our customers.
